About OutdoorInformer.com:

OutdoorInformer.com delivers reviews on outdoor gear and reports the latest news on outdoor products.

Ad Campaigns:

OutdoorInformer.com offers competitively priced choices for advertisers. We offer high performing and low cost advertising alternatives compared to traditional options such as Google AdWords, Yahoo! Marketing and Facebook Ads.

Banner Ads

Two choices are available to fit your company's needs – monthly and CPM. The monthly choice secures an ad for an entire month. If you want to purchase an advertising campaign based on ad impressions, the CPM option is your choice.

Site Sponsorships

Show your support of OutdoorInformer.com's mission with our custom-tailored site sponsorship programs to meet your company's needs. Site sponsorship programs can include multiple Ad Campaign choices.

Giveaway, Contest & Sweepstakes Promotions

OutdoorInformer.com hosts a monthly giveaway promotion monthly. It provides extensive exposure of your company's products and services. All giveaway promotions require entrants to follow the participating company's Facebook page. A review highlighting a product in the prize package during the promotion can be arranged.

Product Reviews

Outdoor product reviews are the lifeblood of OutdoorInformer.com. We have continuing partnerships with more than 200 of the industry's top brands.

Our writers/reviewers have a diverse background in outdoors and athletic activities topped by professional journalism skills and experience. Professional editorial standards are followed to ensure nonbiased product reviews.

We receive numerous inquiries every week requesting products to be reviewed. We are ultra selective about the outdoor gear and clothing we review. Read the [for Gear Companies](#) page for further information. Please inquire about the possibilities of partnering with us for a coming product review.

If your product is selected for review, a lag time between two and four months occurs before the review of your product is published.
